

RELEASE OF INFORMATION

By providing your information through your TRL profile and your resume, you are giving permission for this information to be shared with potential employers who contact AU Career Development Services (CDS) with the intent of screening and hiring potential employees. CDS will not knowingly provide your information or your resume to third-party recruiters or any other employer we determine is unsuitable. The information/resume you include in TRL will be available to employers only through you submitting it directly to them, CDS staff providing it at our discretion, and/or employers locating it in the TRL Resume Books.

You may remove your resume from the Resume Books under your Profile menu by clicking on the Privacy tab and selecting "NO" for permission to include it. For maximum exposure to employers, CDS does not recommend removing your resume from the resume books. If you do so, the only way an employer will have access to your information is for you to submit your resume directly to a specific job posting or OCR job.
